HALIFAX, December 11.

SUNDAY evening laſt arrived here the ſhip Falls, Capt. Robinſon, from Ireland, in which came Col. M'NUTT, and ſome families to ſettle in this province.

PORTSMOUTH, *(in New-Hampſhire)* January 2.

We hear that part of the baggage, and ſome ſervants, belonging to his Excellency John Wentworth, Eſq; is come to Boſton in Capt. Bruce, and that his Excellency was to ſail from London for South-Carolina, a few days after Capt. Bruce, and intends coming from thence by land.

SALEM, *(in New-England)* January 3.

The following obſervations upon the ſevere cold of the laſt week, were made by the help of a very good mercurial thermometer that had the advantage of a proper ſituation for that purpoſe.——Sunday morning in the open air the mercury at 5°.—Tueſday night at 4°.—Wedneſday morning at 1°. in the houſe without a fire, but after having been ſopexed to the open air for about an hour, it fell to—9° or nine degrees below 0.——Thurſday morning, in the houſe at—1°, out of doors at—8 and a half °; at 11 o'clock at night, at—2°;—Friday morning, within doors at—5°.——Since which it has been riſing.

By a thermometer in Boſton, it was Wedneſday, December 31, 5° below 0.—Thurſday, Jan. 1, 6° below 0.——Friday, January 2, 5° below 0.——By the ſame thermometer it was four years before never lower than 3 and a half below 0, and that only for a ſhort time, leſs than a day.——By another it was Wedneſday 7° below 0, ſame forenoon, 5° below 0.—Thurſday, 5° below 0.—Jan. 3d, it roſe 11° above 0.—4th, 22°—5th, 33°—6th, 36°—7th, 42°.

BOSTON, December 29.

By one of the laſt ſhips we are informed the munificent Thomas Hollis of London, Eſq; tranſmitted to Mrs. Elizabeth Mayhew, widow of the celebrated Dr. Jonathan Mayhew, late of this town, a bank note of one hundred pounds ſterling, in grateful memory of her deceaſed huſband, with whom he had for ſeveral years paſt upheld a moſt endearing correſpondence.

January 3. Laſt Thurſday Evening Duncan Stewart, Eſq; collector of his Majeſty's cuſtoms for the port of New-London, was married to Miſs Nancy Erving, daughter of the Hon. John Erving, Eſq; of this town, merchant.

The following is a paragraph of an addreſs of the magiſtrates, miniſters, merchants, and principal inhabitants of the town of Halifax, *to his Excellency the Right Hon. Lord* William Campbell, *Governor of Nova-Scotia, December* 11.

WE have the moſt grateful ſenſe of his Majeſty's paternal regard for this his province, in committing the adminiſtration of government to a perſon of your lordſhip's high diſtinction, and decent from a noble and illuſtrious line of patriots and heroes, whoſe firm and unſhaken attachment to the principles of religion, and liberty, will be remembered ſo long as the annals of good men ſhall remain. And your lordſhip's amiable character affords us the moſt pleaſing aſſurances that you will follow their great example; and by giving your countenance to, and exerting your high influence and intereſt for the promoting of trade, agriculture, and the fiſhery, the natural objects of the inhabitants of this province; the extenſion whereof will not only abundantly increaſe the riches and happineſs of the people under your government, but proportionably enlarge the trade of Great-Britain in our demand for her manufactures. And by your tender concern for the general good of the infant colony committed to your care, your lordſhip will obtain, for the united voice of a grateful people, that moſt glorious of all titles, the father of the country.

PROVIDENCE, *(in Rhode-Iſland)* January 17.

It is ſaid, that by comparing the date of the account of the terrible hurricane and earthquake at Martinico, over great part of the iſland of Cuba, and more or leſs over all the American iſlands, it appears that that melancholy diſaſter happened on the evening of the ſame day that the planet Mars was in the neareſt approach to the earth, which was Auguſt 13.

NEWPORT, *(in Rhode-Iſland)* January 12.

The Sloop Dolphin, David Nye, maſter, returned here on Thurſday laſt. She ſailed from this port on the 28th of December, bound to the Weſt-Indies; and on the 30th, in Lat. 37: Long. 69, met with a violent northerly gale of wind, which began about 8 o'clock in the morning, and continued until 12 at night; during which, about 9 in the evening, the ſloop overſet; by which accident three men were waſhed overboard, two of whom were ſaved, and the other drowned; three boats, the cabooſe, and every other article upon deck, were carried away. The next day after the gale, ſpoke with a ſnow, Capt. Scott, from Barbadoes, bound to Philadelphia, which had ſhifted her load, loſt between 20 and 30 hogſheads of rum, and met with other damage, and was intended to get into the firſt port ſhe could make.

Capt. Hanc Godfrey, from the Weſt-Indies, bound to Boſton, put in here laſt Saturday in diſtreſs. He had been out 44 days, and above 20 was beating upon this coaſt; and in the late ſevere weather, he and his men were conſiderably froze.

Capt. Godfrey, laſt Thurſday, ſaw a veſſel, which he took to be the packet from Falmouth, bound to New-York.

We hear that the Rev. Thomas Clap, late preſident of Yale College in Connecticut, and well known to the literary world, departed this life a few days ſince.

NEW-YORK, January 1.

Capt. Banks arrived here on Thurſday laſt in 22 days from Penſacola; and the intelligence by this veſſel is, That the Creek Indians, who have for many years committed murders on the Engliſh, and never could be brought to give ſatisfaction, have lately, for the murder of two Engliſhmen, been threatened by Brigadier Taylor in a moſt ſpirited manner, ſhould the criminals not be brought to juſtice: In this he was ſoon gratified by ſixty of their deputies waiting on him the latter end of laſt month, at Penſacola, with white evidence to prove they had cut off the murderers, and to give aſſurance of their future good behaviour. This is the firſt inſtance that numerous and haughty people, have given of their dependance on the Engliſh.

Governor Johnſton, we alſo learn by the ſame opportunity, is on the point of going home, as re-called for mal-adminiſtration: On which account the inhabitants of Weſt-Florida are not diſpleaſed.

A Spaniſh regiſter ſhip from La Vera Cruiz for New-Orleans, was lately caſt away at the mouth of the river Miſſiſippi, with a great quantity of dollars on board, which were all ſaved, with the whole crew.

Saturday laſt ſailed for Penſacola, his Majeſty's frigate Cygnet, Capt. Durell; in which ſhip went paſſengers, Brigadier-General Haldiman, Capt. Marſh, of the 46th, and Lieutenant Hutcheſon, of the 60th.

January 5. Capt. Cotton, in a ſloop belonging to this port, has been ſeized by a Daniſh man of war's tender, at St. John's, for one hogſhead of ſugar and a little cotton on board, without proper permits, and carried into St. Croix, where the owner, Mr. David Roſs, of this city, was impriſoned, and put to ſo much trouble, that he died ſoon after, ſuppoſed with grief, and the veſſel and cargo were confiſcated.

January 12. After the deep ſnow which fell here the 29th of December, the weather continued ſeverely cold till the 3d inſtant, and cloſed or filled up the creeks and rivers with ice. On the 4th it began to thaw and rain almoſt inceſſantly till the 6th, which melted and carried away almoſt all the ſnow and ice, ſince which we have had fine ſpring like weather, the rivers and creeks are open, and the ſmall boats come as uſual.

Capt. Campbell from Rhode-Iſland, laſt Monday paſs'd by a ſloop in the ſound off Oyſter-Bay, adrift, a boat alongſide, and no body on board, as he could ſee, but the wind blowing hard, he could not bring too in order to make any further diſcovery about her.

January 19. By Capt. Dobſon, from New-Orleans, we have advice, that tho' a Spaniſh Governor, with about 100 men, had arrived there ſome time ago, yet that the garriſon and iſland were ſtill in the poſſeſſion of the French; who were in general diſſatisfied with the ceſſion of that place to the Spaniards, and would much rather they had been put under the Engliſh government; but that the Spaniſh governor had ſent an expreſs to the Havanna, for 300 men more, and when arrived the fort and place were to be peaceably put into his poſſeſſion; and Capt. Dobſon ſays, as he came by the Havanna, he ſaw ſeveral veſſels getting under ſail there, which he apprehends were thoſe forces.——Captain Dobſon touch'd at Penſacola in his way home, and ſays that Governor Johnſton intended to ſail for England in 8 or 10 days after him.—With Captain Dobſon came paſſenger Colonel George Croghan, who went to the Illinois by way of Pittſburg to make peace with the Southern Indians, which we are told he has happily effected.

By Capt. Seymour, in 32 days from Curacoa, we are inform'd that juſt before he left that place, a Spaniſh veſſel arrived there, which brought advice that Lord Chatham had inſiſted upon the immediate payment of the Minilla Ranſom, and in caſe of refuſal would take Porto Rico, and keep poſſeſſion of it till payment ſhould be made.——On the other hand, we have advices from England, that the Spaniards were ſending a conſiderable number of ſoldiers and ſettlers to that place.

We have terrible accounts from all parts, of the damage done by the floods and ice upon the late ſudden thaw: From New-Haven, in Connecticut, we hear that all the bridges in that neighbourhood, were either carried away or render'd impaſſable.

January 26. We have intelligence from Dominica, by a private letter, that a great number of Engliſh veſſels have arrived there ſince its being made a free port, particularly from New-England, whereby proviſions and lumber of all kinds, were become exceeding plenty, and meer drugs, whilſt but very few foreign veſſels have arrived there; the French in particular doing all they can to prevent their veſſels from going to that iſland, and Martinico kept open to Engliſh veſſels, in order to induce them to come thither, rather than to Dominica, when they have ſuch commodities on board as ſuit the French market.

Wedneſday laſt ſeveral Gentlemen arrived here from Quebec, in Canada, in 12 days: They came over the mountains on ſnow-ſhoes to Crown-Point, and from thence down Lake-George on the ice. The river St. Lawrence was not froze over at Quebec when they came away; and we are told, in the hardeſt weather ſeldom is froze there before the month of February.

ANNAPOLIS, *(in Maryland)* December 26.

A very melancholy inſtance of taking in a paſſenger from a convict ſhip, lately happened a few miles from this city: Nine of the family have died already of the goal fever, and four more are now in a dangerous condition, from the ſame diſorder. The fever that raged here, of the ſame kind, and as generally ſuppoſed, was brought in by one of theſe ſhips. Surely the many ſhocking inſtances of the like nature, by which many families have ſuffered extremely, will make people more cautious how they admit under their roofs, theſe wretches, doubly nuſances from the contagion of their diſtempers, and of their vices.

January 1. This morning, the Commiſſioners for paying off the public claim, depoſited about 18,000l. of the New Bills of Credit, in the iron cheſt at the paper currency office, being part of what is appropriated for that purpoſe.

WILLIAMSBURG, *(in Virginia)* December 11.

On Monday the 20th of October laſt there fell in Halifax county an amazing ſhower of hail, which was preceded by a great noiſe in the air. Many of the hail ſtones were as large as a pint bowl, and one meaſured five inches long an hour after it fell. The cloud aroſe in the north-weſt, and had its direction to the ſouth-eaſt.

The trees are not only ſtript of their leaves but of their boughs and twigs alſo, and appear more naked than they would have done in the middle of winter.——The noiſe which preceded the ſhower, and the ſhower itſelf, which laſted near an hour, were ſo dreadful that many people began to apprehend the laſt day to be at hand. It killed many fowls and ſome hogs; and it is ſurpriſing it did not kill even the cattle and horſes.

LONDON, December 3.

YESTERDAY forenoon the Earl of Chatham had an hour's private conference with his Majeſty at the Queen's palace.

It is confidently ſaid that no alteration will happen in the preſent patriotick board of treaſury.

It is alſo ſaid, that after the ſtricteſt ſcruting, the ſeveral reſignations that have been lately made are found to be without any reaſon or cauſe; and that the great patriot and ſtateman's ſchemes have been approved of, and will be carried into execution.

It is ſaid no ſuperior poſts in the army will, for the future, be diſpoſed of or exchanged, without the conſent and approbation of his Majeſty.

It is confidently aſſerted, that any conſiderable change in the Miniſtry is never effected under an expence to the public of fifty thouſand pounds.

A draught of twenty-four men is made from each of the 14th, 24th, and 35th regiments of foot, for Penſacola; and it is ſaid the like draught will be made from all the other regiments of foot now in Britain, in order to ſtrengthen that colony.

December 8. *Yeſterday there was a great court and drawing-room at St. James's, at which their Royal Highneſſes the Duke of York, Glouceſter and Cumberland, the Princeſs of Brunſwick, ſeveral of the nobility, and foreign miniſters were preſent.*

Yeſterday his Royal Highneſs the Duke of Cumberland received the ſacrament at St. Martin's church to qualify himſelf for being one of his Majeſty's moſt Hon. Privy Council.

The Earl of Hilſborough, and Lord Le Deſpencer, are appointed joint Poſtmaſters-General.

Right Hon. Hans Stanley is appointed Cofferer of his Majeſty's Houſhold.

And his Grace the Duke of Boulton Governor of the Iſle of Wight.

To-morrow Sir Edward Hawke will take his ſeat at the Admiralty Board as firſt Lord Commiſſioner.

Same day diſpatches were brought to Mr. Secretary Conway's office, from the Earl of Rochford at Paris.

The bill for the better protection and ſecurity of all perſons who have acted in purſuance of the order of council, for laying an embargo on wheat and wheat flour, intended for exportation, has paſſed an auguſt aſſembly.

They write from Corſica, that General Paoli, in a late aſſembly of the chiefs, had publiſhed a ſumptuary law for reſtraining the iſlanders from luxury in dreſs, which had been introduced among them by the French.

Advice has been received from Legborn, that an epidemical diſtemper had carried off numbers of inhabitants in the iſle Scio, in the Mediterranean, communicated by the arrival of a veſſel from the Levant.

December 10. *An expreſs has been lately ſent to his Grace the Duke of Northumberland at Paris, in conſequence of which his Grace is expected home in a few days.*

Monday an expreſs was diſpatched to the Earl of Rochford at the court of France.

We hear that the Right Hon. Hans Stanley, Eſq; cofferer of his Majeſty's houſhold, will ſhortly be advanced to an Engliſh peerage.

They write from Korſor, in the iſle of Sealand, that two perſons being employed there to carry a cheſt on board a veſſel,

ſurveying every beauty, and that it contained ſome living animal, the owner and gave information thereof to a magiſtrate, who ordering the cheſt to be opened, they found in it a perſon as ſuppoſed of ſome conſequence, who was endeavouring to make his eſcape that way out of the kingdom.

LONDON, December 13. *The Houſe of Commons were up yeſterday at three o'clock, but meet again this day for the further diſpatch of buſineſs.*

We hear that a farther ſum will be granted this ſeſſions towards improving the colonies of Eaſt and Weſt Florida.

December 15. *It is ſtill reported for certain, that the Right Hon. the Lord Chancellor of Ireland is to reſign upon a penſion, and that he is to be ſucceeded by Sir Thomas Sewell, Knt. Maſter of the Rolls, who is to be ſucceeded by the Hon. James Hewett, Eſq; one of his Majeſty's Juſtices of the King's Bench, who is alſo to be ſucceeded by —— Huſſey, Eſq.*

A Board of Admiralty will, for the future, be held three times in a week, for the quicker diſpatch of buſineſs.

Thurſday laſt the Grantham packet, Capt. Jones, ſailed for the Weſt-Indies, with ſome extraordinary diſpatches for the Governors of Florida and South-Carolina.

A letter from Stockholm ſays, "In 1756, a time when the ſtate was in commotion, the Count de Hordt left this kingdom, and went into the ſervice of Pruſſia, where he obtained the rank of Major-General. From that time no perſon expected to ſee him again in this city; but he has juſt appeared, to the great ſatisfaction of his friends, together with the Counteſs his ſpouſe."

We learn from Liverpool, that goods and merchandize, to the amount of 100,000l. are now getting ready there, to be ſhipped off for New-York and Philadelphia, on account of the merchants of thoſe places.

At a meeting of the Royal Society on Thurſday laſt, his Poliſh Majeſty was unanimouſly elected a member of the ſame.

At the laſt meeting of the Council of the Royal Society, Dr. Bevis was appointed their Secretary for Foreign Correſpondence, in the reſignation of Dr. Maty.

Thurſday laſt a bear, belonging to General Conway, in Pall-Mall, which was chained to a tree in the garden, ſlipped from his faſtening, climed up to the top of the tree, which was a very high one, and from thence jumped on the houſe of an eminent taylor, next door, and ſtaring in at the garret window, where a number of the croſs-legg'd gentry were at work, he frightened them all out of their humble poſition; however, being but a cub, he was ſecured without doing any miſchief.

Letters from Heidelberg in Germany, ſay, that there has not been ſo long a drought known in thoſe parts in the memory of man as what they have experienced this year. The Rhine has been ſorded in many places: A man on horſeback paſſed it a little above Manheim, where the bed of the river is very deep; and a rock has been diſcovered in the Neckar, upon which is ſeen "the year 1476." which was cut as a mark or memorandum of the drought at that time; and there has now been engraved, by order of the Elector Palatine, "the year 1766," four inches below that ancient mark.

December 16. *Yeſterday there was a great council at St. James's, at which the Right Hon. the Lord Chancellor, his Grace the Duke of Grafton, the two Secretaries of State, and ſeveral other Lords aſſiſted, which did not break up till near four o'clock.*

Yeſterday his Excellency the Earl of Briſtol had a numerous levee at his houſe in St. James's-ſquare.

A perſon of reputation and ingenuity now in town, has found out (by means of an improvement in an antient inſtrument) an eaſy and expeditious method of finding the latitude of a place at any uncertain time, provided the ſun is to be ſeen for 5 or 6 minutes only; which is a rule that has never yet appeared for public good. The moſt accurate method at preſent is Mr. Graham's, publiſhed by Martin in his new appendix on the Globes; but as that cannot be aſcertained to a minute, without a globe of 28 inches diameter, the method above-mentioned certainly demands the attention of the commiſſioners appointed for the diſcovery of the longitude; as for reaſons well known to experienced perſons, it muſt prove of ſingular ſervice towards the improvement of navigation; for without ſuch means, the art of navigation can never arrive at its ultimate perfection; neither can any time-keeper, nor even the method the ingenious Dr. Scarlyn offers, in that reſpect, ever aſcertain the true longitude at ſea or land.

The rule diſcovered by the perſon above-mentioned, it ſo eaſy, and ready, that it does not require to take the ſun's altitude to any exactneſs; the nearer to any one degree the altitude is taken, the more accurate (of courſe) will be the latitude and time when taken.

They write from Breſt, that a large number of tranſports were fitting out there to carry over 10,000 troops, and a large quantity of naval and military ſtores, for Monte Chriſti and Hiſpaniola.

They write from Rockfort, that the Count de St. Florentine, a fine third rate man of war, nearly finiſhed, had by ſome accident taken fire, and was burnt down to the keel.

CHARLES-TOWN, FEBRUARY 10.

ON Monday the 2d Inſtant, early in the Morning, the Schooner Good-Intent, William Blythe, Maſter, ſailed over the Bar of Winyah for this Port, with a valuable Cargo of Indico, Pork, &c. but ſoon after he got over the aforeſaid Bar the Wind began to blow very hard from N. N. E. with Rain, which obliged him to Scud with Part of his Square-Sail and Main-Sail, the Sea making ſeveral Breaches over the Veſſel, and about Four o'Clock in the Afternoon of the ſame Day, in endeavouring to get over our Swaſh-Bar, ſhe ſtruck, and loſt her Rudder; then not being governable, the Sea ſtove in her Dead-Lights, ſo that the Water that came in at the Cabbin-Windows filled her, and as ſoon as ſhe got over the Bar ſhe fell on her Broadſide and ſunk.—It was with great Difficulty that the Maſter and Crew ſaved their Lives in the Boat.—The Veſſel has ſince been found, and ſome Part of her Cargo ſaved; and altho' all poſſible Means were uſed to Tow her up to Town, ſhe ſonk near Sullivan's Iſland, and is entirely loſt.

The following Ships were to ſail from London for this Port, viz. The Nancy, Parker, the 20th of December;—the London, Tate Strachan; Portland, Higgins; Union, Hooper; Roſe-Iſland, Groves, about the 6th of January.—The Anne, Maxted, for Savannah and Port-Royal; the Brig Roach, Willis Morgan, for Bermuda; and the Generous Friend, Henry Simpſon, for North-Carolina, were alſo to ſail about the 6th of January.

The ſame Evening arrived alſo from New-York, the Sloop Sally, John Schermerhorn, Maſter, in whom came Mr. William Johnſon, a Gentleman well known for his Experiments in that uſeful and neceſſary Branch of natural Philoſophy, called Electricity; and we hear intends to exhibit as ſoon as a convenient Room can be obtained for his Aparatus.

The ſame Day arrived, the Duncannon Packet, Captain Charles Edwards, from Penſacola.—Captain Robert Craig, late of the Brig Rebecca, of this Port, who was caſt-away in a hard Gale of Wind the 26th of January laſt at Penſacola; with Mr. Shaw, of Beaufort, Port-Royal; Mr. —— Morgan, of Philadelphia, and ſundry others, came Paſſengers in the Duncannon.

The Number of Veſſels which have arrived within theſe eight Days, has advanced the Price of Rice to *Fifty-five Shillings* per Hundred.

Letters from Fort Prince George, Keowee, ſay, that on the 9th of laſt Month, ſeven Traders from Virginia, who were carrying Goods into the Cherokee Country, were found murdered near Keowee. Thoſe Traders had ſent Notice to the ſaid Town of their Approach, and a Party was immediately ſent to eſcorte them in, who found their dead Bodies. The Goods were not touched, and only ſome Paint is ſaid to be miſſing. 'Tis ſuppoſed the Murder was committed by ſome Cherokees, in Revenge for the People they loſt in Virginia about two Years ago.

Sunday laſt the Hon. John Stuart, Eſq; Superintendant of Indian Affairs for the Southern Diſtrict, ſent off an Expreſs to the Cherokees, with Diſpatches to his Deputy, &c. and a Talk to thoſe Indians from his Excellency our Governor.

The Creeks and Chactaws ſtill continue their Hoſtilities, and it is highly probable that the brave Chickeſaws will ſoon likewiſe declare againſt the Creeks.

The Animoſity between the French and Spaniards at New-Orleans, has ariſen to great Heights. Don Juan Antonio Ulloa, the Spaniſh Governor, has been obliged to retire for Safety, to the Iſland of Baliſe, at the Mouth of Miſſiſippi, whither he was accompanied by M. Aubry the French Commandant, who could not reſtrain the Inhabitants. When the laſt Accounts came away, Don Juan remained at the ſaid Iſland, waiting the Arrival of a ſtrong Body of Spaniſh Troops, to enable him to carry into Execution the Orders of his Catholick Majeſty. The French for a conſiderable Time flattered themſelves that Louiſiana was to be ceded to Great-Britain, and now declare that they will to a Man abandon the Country ſooner than come under the Spaniſh Government. Their Paper Currency which was Four for One, is fallen to Eight for One.
